Full Department

Calling News from ASCTech

ASCTech would like to share an update regarding the OTDI Skype for Business transition to Microsoft Teams Calling project.

Microsoft Teams Calling will be replacing our Skype for Business phone system at The Ohio State University. Your department is scheduled to begin moving to Teams Calling on **Friday, June 21**. Teams Calling is the solution to keep us connected regardless of where we work. Stay tuned for additional communications regarding the migration of your phone number from Skype for Business to Teams Calling.

Training resources for Microsoft Teams are available through the [Administrative Resource Center \(ARC\)](#). There is also an in-depth [previously recorded live training](#) that addresses the specific changes coming as part of the university move from Skype to Teams calling.

If you have any questions or concerns regarding the Microsoft Teams Calling implementation, please contact your **local IT support** or you can always reach out to the **IT Service Desk** by calling [614-688-4357](tel:614-688-4357) (HELP), emailing servicedesk@osu.edu, or using [Self Service](#).

Earlier last month, the Aurora Borealis was visible all over the country, even as far south as Arizona! The following video, provided by Professor Klaus Honscheid, shows a time lapse video from the all sky camera at Kitt Peak

Observatory. Enjoy!

Graduate Students

We had 12 students participate in this year's **David DeMartini Physics senior graduate student competition** and three students with the highest evaluation scores are the winners! Each will receive \$1500 from the David DeMartini endowment for their scholarship.

The winning posters:

Madhur Mehta ; HET; Prof. Mathur “The universal thermodynamic properties of extremely compact objects”

Daniel Russell ; CME; Prof. Yang “Strain induced ferromagnetism of stoichiometric LaCoO3 epitaxial films”

Brandon Manley; Nuclear Theory; Prof. Kovchegov “Orbital Angular Momentum at Small x”

Congratulations!
