Resources to Help You Get Started

- See LabVIEW: 9 Minute Introductory Video
- LabVIEW Skills Guide

3. Select “Professor or Student?” from the pop-up window as seen in the following screenshot:

Download Options

Choose your download options

Current LabVIEW User?
Download the latest version and activate it using your serial number. Also access other exclusive resources and support.
1.17 GB

Evaluating LabVIEW?
Download the latest trial version.
1.17 GB

Professor or Student?
Download the latest trial version and all products included in the Academic Site License. Also receive resources specific to teaching LabVIEW, conducting research, and completing assignments.
1.17 GB

Close

4. You will be required to create your own National Instruments online account. Doing so will also give you access to NI support. Enter your registration information and select the appropriate role from the “What best describes your role?” drop-down menu option.
5. Proceed to download your trial copy of LabView. Ignore additional software downloads. If you have issues downloading or installing LabView, please contact National Instruments support using the account you created. **Note:** The 7 day trial can be extended to 45 days. After your 7 day trial expires, you will be asked during each program launch if you would like to extend your trial to 45 days. Instructions are built in to the 7-day trial on how to extend your license.

Additional Software Downloads

Many downloads include a downloader file to increase the transfer speed of the software and the ability to resume a download if interrupted. After the file is installed, your software download begins.

Note: If you install any of the service packs below without a software license, the new version will not work and you will need to reinstall your original version of LabVIEW.
